

Inverter cost per PV watt

Overview

A solar inverter makes up about 10% of the total cost of your solar energy system. The size of your system, the type of inverter, and the efficiency rating affect your final cost. While string inverters generally come with warranties ranging from 5 to 10 years, they may need replacing within the lifespan of the solar panels, depending. A solar inverter costs \$1,500 to \$3,000 total on average for a medium-sized solar-panel system installation.
