

Is installing photovoltaic panels on the mountain a scam

Overview

Con artists use misleading sales tactics and lies to trick homeowners out of money and personal information. If you've received an offer for "free solar panels," it could be a scam. Always look for businesses you can trust - like Accredited Businesses using the BBB Seal. Here are red flags to look out for when. Did a salesperson knock on your door and promise free rooftop solar panels at no cost to you?

Or say you'll never have to pay another electricity bill because government programs, grants, or rebates cover your solar installation?

It's likely a scam. While there are some government-funded solar. Solar panel fraud has become a growing concern in the United States, leaving many homeowners stuck with hidden fees, inflated energy bills, and contracts they never fully understood. As more families consider solar energy improvements, dishonest companies exploit the fine print in solar panel. In the worst cases, homeowners have been left making payments on overpriced systems that don't work, with little to no support from the installation company that put the panels on their roof.
