

Islamabad solar energy policy

Overview

As Pakistan's capital city, Islamabad has embarked on an ambitious solar energy expansion that positions it to lead the country in clean power adoption. Since the launch of the net metering project in 2016, IESCO has installed 8,702 net metering connections with a total generation capacity. ISLAMABAD – Solar power generation in Islamabad has crossed a major milestone, with residents now generating over 100 megawatts (MW) of electricity through rooftop solar systems under the net metering initiative. It brought monthly bills down to almost zero. When Zia saw the economic difference solar. ISLAMABAD: Prime Minister Shehbaz Sharif on Sunday ruled out any change in the government's policy and priorities regarding solar energy, instructing the authorities to clear all ambiguities regarding the solarisation policy through facts and figures.
