

# Jamaica s large-scale environmentally friendly lithium energy storage

## ESS

## Overview

---

GSL Energy has successfully installed three advanced 14.34 kWh floor-mounted lithium iron phosphate energy storage systems in Jamaica. These systems, integrated with SRNE inverters, provide a powerful and efficient solution to Jamaica's challenging tropical climate management energy. GSL Energy, a leading energy storage solutions provider, has successfully deployed three 14.34 kWh systems. With one of the region's highest electricity prices and a heavy reliance on imported fossil fuels, the need for a more resilient, clean, and cost-effective power system is urgent. Jamaica, known for its sunny climate and commitment to sustainability, has made significant strides in renewable energy. The Jamaica Photovoltaic Energy Storage Power Station stands as a landmark project in the Caribbean, combining solar power generation with advanced battery storage.
