

Kenya's special energy storage battery companies

Overview

KenGen has commissioned its first Battery Energy Storage System (BESS) in Nairobi to power its modular data center, ensuring uninterrupted renewable energy supply. Chloride Exide specializes in high-quality batteries, including automotive and solar options, as well as power-backup systems. Their commitment to sustainable energy solutions is highlighted through their Chloride Solar division, which offers both solar grid-tie and off-grid systems. Today, as a vertically integrated energy. Kenya is rapidly emerging as one of Africa's leading renewable energy markets, driven by government initiatives and growing demand for solar battery storage and off-grid solutions. Make full use of your investment and maximise business value by implementing intelligence with this solution. KenGen is the leading electric.
