

# Korean supercapacitor module price

## Overview

---

Each section contains quantitative market data including market by value (US\$ Millions), volume (production, consumption) & (K F) and average price (US\$/F) by manufacturer, by Type, and by Application. As per Market Research Future analysis, the South Korea super capacitor market size was estimated at 264. 2 Billion in 2022 and is projected to reach USD 0. The market is moving towards concentrated. The range lies from 0 to 10000. While prices have dropped 40% since 2018, a typical 3,000F supercapacitor module still costs \$150-\$300 - significantly higher than traditional batteries in upfront terms.
