

Kuwait Ig chem

Overview

LG Chem, one of Korea's leading chemical entities, is reportedly in talks with Kuwait Petroleum Corp. to divest a portion of its stake in its Yeosu-based naphtha cracking centre. A growing number of Korean petrochemical companies are halting investments and considering selling their unprofitable facilities to cope with the lingering industry downturn resulting mainly from the oversupply of Chinese products, according to industry officials, Tuesday. Our exceptional products and materials with world-leading quality and cutting-edge technology are advancing the future life forward. We provide a biweekly newsletter summarizing the fast-changing trends in domestic and global chemical, semiconductor, and advanced material markets. [3] It was first established as the Lucky Chemical Industrial Corporation.
