

Kyrgyzstan Solar Containerized Fixed Type

Overview

This initiative is part of a broader national strategy to modernize its aging grid and involves installing rooftop solar panel systems and battery energy storage systems (BESS) on 131 homes in the southern Batken-New Town, with plans to expand to other regions. The solar energy project aligns with Kyrgyzstan's Energy Sector Development Strategy, which aims to develop 1,500 MW of renewable energy by 2035. This strategy, supported by the World Bank, seeks to diversify the energy sector, increase domestic electricity. We innovate with solar photovoltaic plant design, engineering, supply and construction services, contributing to the diversification of the energy matrix in our. We provide operation and maintenance services (O&M) for solar photovoltaic plants. Thermal energy storage provided by CSP technology is a specific asset.

Kyrgyzstan Solar Containerized Fixed Type

Kyrgyzstan Solar Energy Storage Container Mobile Trading

Kyrgyzstan partners with the IFC to build new solar power plants in Batken and Talas, aiming to power over 125,000 homes and advance its renewable energy goals.
