

Laos australia solar power

Overview

LASEP is supporting Laos' sustainable energy transition, with a focus on energy planning and renewable energy technology, and Australia's Partnerships for Infrastructure (P4I) initiative is supporting the implementation of LASEP. The Laos-Australia Sustainable profitable energy sector in Laos. This will advance Laos' National Socio-Economic Development Plan, moving towards a Green Economy and supporting Laos' ambitions to achieve net zero by 2050. On 15 May, Australia's Minister for Foreign Affairs Penny Wong, joined. ASEAN member Laos has plans to increase renewable energy in its power mix, notably solar power buildout. However, it continues to rely on hydropower and coal-fired power plants to generate electricity, complicating both its way forward and decarbonisation plans. This landmark initiative represents a major boost to the region's green energy capacity and underscores the growing momentum behind utility-scale solar. VIENTIANE (Laotian Times): Australian and Lao government representatives gathered with technical experts in Vientiane for the inaugural Programme Steering Committee (PSC) meeting of the Laos-Australia Sustainable Energy Partnership (LASEP).
