

# Latest 200kW Mobile Energy Storage Container

## Overview

---

France-headquartered Exide Technologies has announced a new energy storage solution designed for transport. The company said the new product uses up to four lithium iron phosphate (LFP) batteries. It is equipped with a single 180 kW or 2 x 90 kW chargers and multiple three-phase sockets. Equipped with six new energy vehicle charging guns, it allows for fast charging and extended power. The C&I ESS Battery System is a standard solar energy storage system designed by BSLBATT with multiple capacity options of 200kWh / 215kWh / 225kWh / 245kWh to meet energy needs such as peak shifting, energy back-up, demand response, and increased PV ownership. BSLBATT Commercial solar battery. Also, thanks to ECO Controller, Atlas Copco's Energy Management System (EMS), these units can be synchronized to increase the power offering to match the demand. That's the reality for forward-thinking businesses today.
