

# Latest photovoltaic panel price trends

## Overview

---

InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Average price of solar modules, expressed in US dollars per watt, adjusted for inflation. Data source: IRENA (2025); Nemet (2009); Farmer and Lafond (2016) - Learn more about this data Note: Costs are expressed in constant 2024 US\$ per watt. Global estimates are used before 2010; European market. The user wants to know about price trends for photovoltaic (PV) panels. Including sources like global market reports, ecommerce platforms, and industry. Polysilicon A small number of new polysilicon orders have recently been concluded at lower price levels, mainly involving mid-tier producers. This week, polysilicon makers have continued discussions o InfoLink's polysilicon price quotes exclude additional costs from special specifications or. Our deep supplier relationships, relevancy, and scale enable us to aggregate pricing, availability, and product and manufacturer data from across the market into a one-of-a-kind tool for solar module and energy storage buyers. Discover how global demand, raw material prices, and technological advancements shape today's solar panel.
