LiFePO4 : CC / CV / absorption / bulk / float / confused again!

For LiFePO4 this should be the other way around, yes?? As boost is CC and float CV, one wants CC to get to +/-90% SOC and CV to the rest. 90% SOC is lower voltage then 95% Where ...

Many here say that an alternator should not be connected to LiFePO4

...

I understand the reasons. A stock alternator directly connected to Lithium is a problem as the low internal resistance will cause high continuous currents and kill the alternator by heat. But ...
