

# Liquid Flow Battery Grid-Scale Energy Storage

50KW modular power converter

#### Flexible Configuration

- Modular Design, Expanding as Required
- Small&Light, Wall Mounted
- Installed in Parallel for Expansion

#### Powerful Function

- Support PV+ESS
- Grid Support, Equipped with SVG Technology
- On-Grid and Off-Grid Operation

#### Reliable Protection

- Outdoor IP65 Design
- Sufficient Protection Functions Equipped

## Overview

---

Flow batteries are among the next-generation storage systems that can sock away wind and solar energy for 8-10 hours or more, enabling grid managers to handle an increasing amount of renewable energy while improving resiliency and reliability. A new recipe provides a pathway to a safe, economical, water-based, flow battery made with Earth-abundant materials RICHLAND, Wash. — A commonplace chemical used in water treatment facilities has been repurposed for large-scale energy storage in a new battery design by researchers at the Department. Mhor Energy has developed a liquid flow battery that stores energy on a large scale, offering a durable alternative to traditional battery technologies.

## Flow batteries for grid-scale energy storage

One challenge in decarbonizing the

power grid is developing a device that can store energy from intermittent clean energy sources such as solar and wind generators. Now, MIT researchers have

...
