

# Lisbon New Energy Storage Box

## Overview

---

Lisbon - 17 December 2025 - Hyperion Renewables, a company with nearly two decades of experience in developing, financing and operating utility-scale renewables projects, has started construction of its first battery energy storage projects in Portugal, in partnership with Omexom. Lisbon - 17 December 2025 - Hyperion Renewables, a company with nearly two decades of experience in developing, financing and operating utility-scale renewables projects, has started construction of its first battery energy storage projects in Portugal, in partnership with Omexom. Two solar-plus-storage projects are among five planned renewable energy sites whose details have been published for public consultation on the Portuguese Environment Agency's Participa portal. Lisbon-based Endesa subsidiary Newcon40 Unipessoal Lda is developing the Sol de Évora Photovoltaic Solar. Lisbon's iconic yellow trams zipping through streets powered entirely by stored solar energy. While we're not quite there yet, the Lisbon Energy Storage Project Bidding process for 2025 could make this vision a reality. As Europe's first major urban battery storage initiative of its scale, it's. Hyperion's first battery storage projects in Portugal, located in Estremoz and Évora. Injection power and storage capacity sufficient to supply over 5,000 households daily. This facility isn't just about storing power—it's about redefining how cities balance energy demand, reduce carbon footprints, and future-proof their grids. Discover how this \$220 million project will reshape Europe's energy landscape. When renewables supplied roughly 80% of Portugal's electricity in July 2025, prices in the wholesale market briefly slid below zero—great for generators selling excess electrons, confusing for consumers who.
