

# List of unqualified solar inverters

## Overview

---

This list below of eligible non-solar equipment has been updated to reflect NRTL submission of the reactive power priority requirements to SCE. Solar installers, system integrators, and sellers can use our advanced technical filters to find the exact PV inverters that match their needs. Effective 10/01/19 - This internal SCE Non-Solar Inverter list will discontinue updates as the California Energy Commission will be verifying and hosting certified. Find out what types of solar inverters can be installed, how to check the permit, and where to buy reliable equipment! As solar power systems keep getting more popular, it's super important to use reliable and approved equipment. Inverters play a key role in turning solar energy into electricity. The Energy Commission's Solar Equipment Lists include equipment that meets established national safety and performance standards. Most inverters listed below are from well-established manufacturers and are described in more detail in our.
