

# Lithuania distributed energy storage lithium battery

## Overview

---

Vilnius-based utility Ignitis Group will install 291 MW/582 MWh of battery energy storage systems (BESS) at two of its wind farms and at a hydro site, with commercial operation expected in 2027. This article explores the growing demand, key applications, and success stories of BESS in Lithuania's energy landscape. Audrius Baranauskas, head of innovation at Lithuanian TSO Litgrid, talked Energy-Storage. news through its 200MW storage-as-transmission BESS units, deployed by system integrator Fluence. Powering a sustainable tomorrow. Countries around the world are facing the challenge of integrating renewable energies.
