Overview

The country has been experiencing a power crisis for years, leading to widespread electricity shortages and load shedding schedules. In this article, we'll explore the state of load shedding in. Two DisCos, Eko Electricity Distribution Company (EKEDC) and Ikeja Electricity Distribution Company (IKEDC), have blamed load shedding in Lagos resulting to a significant power disruptions due to ongoing faults on the 330kV transmission lines. As one expert. Net-shedding, coined from network shedding, may be a necessary tactic where Mobile Network Operators may reduce or temporarily shut down parts of a network in certain areas to cut down on power or energy costs and consumption. Why The Network Bars Are Going Up and Down like a Pendulum. Source:.
