

Long-lasting mobile outdoor cabinet for emergency rescue

Overview

An outdoor AED cabinet is a secure, weatherproof AED storage solution designed to protect the device while keeping it available for public use. These cabinets are typically installed on exterior walls or freestanding posts in parks, school campuses, sports facilities, and outdoor. Our emergency cabinets are ideal for storing supplies your facility might need during a natural disaster. With over 90,000 installations worldwide, we deliver trusted defibrillator cabinet outdoor solutions for schools, public transport, retail, and. Your Complete Package includes everything you need to set-up your own outdoor AED save station. Note: If your organization has young children, 8 years. For protected, quick access to emergency supplies during a disaster, this high performance cabinet features a fire-resistant design with durable powder paint “emergency orange” finish for high visibility. It can be located quickly during power outages with the GloAlert™ glow-in-the-dark labels. We carry AED cabinets for all major defibrillator brands and models.
