

Longi 550 photovoltaic panel cost

Overview

LONGi solar panels cost approximately \$3.03 per watt, aligning with the national average and making them a cost-effective choice for homeowners. For an average 7 kW solar system, LONGi installation costs around \$21,210 before federal tax credits, dropping to approximately \$15,000 after. LONGi panels deliver exceptional efficiency ratings reaching up to 21.3%. With a rated power output of 550W and a maximum module efficiency of 21.3%, this panel incorporates Gallium-doped PERC. Shipping costs shown at checkout are estimates and may vary based on your location and shipping origin, and may be subject to change. A \$75-\$150 skid break fee may be applied depending on panel quantity. Series Fuse Rating: 25A. The LONGi 550W monocrystalline solar panel is a high-efficiency photovoltaic solution engineered for both residential and commercial applications. Available in various configurations, these panels differ in dimensions, cell technology, and performance characteristics—factors that directly influence. Recent data from the 2024 Solar Industry Pulse Report shows this workhorse model offers the best \$/Watt ratio (¥0.3% conversion efficiency still outperforms 68% of competing 550W-class panels. Privacy Policy This product is not currently quoted on EnergySage.
