

# Macedonia solar container battery Factory

## Overview

---

The US-based Pomega Energy Storage Technologies, specialising in lithium iron phosphate battery production, will install a 62-megawatt (MW)/104-megawatt-hour (MWh) battery energy storage system (BESS) at the Oslomej 80-megawatt-peak (MWp) solar plant in North Macedonia, operated by the company. The US-based Pomega Energy Storage Technologies, specialising in lithium iron phosphate battery production, will install a 62-megawatt (MW)/104-megawatt-hour (MWh) battery energy storage system (BESS) at the Oslomej 80-megawatt-peak (MWp) solar plant in North Macedonia, operated by the company. The Energy Storage Container is designed as a frame structure. One side of it is suitable for residential, industrial, renewable and EV-charging sites. The company is in talks on a project worth up to EUR 360 million, including battery racks, transformer cabinets, power cabinets, and energy storage systems of batteries. It's not keeping up with the 23%. Here are some key points: Cost: Lithium-ion batteries for storage are averaging €450–€600 per kWh<sup>1</sup>. Investments: The country is attracting investments in battery factories, with projects worth up to EUR 360 million underway<sup>2</sup>. BMZ wants to use the plant to strengthen its position on the global market. Located at the crossroads of Southeast Europe, Bitola has emerged as a critical player in energy storage manufacturing.
