

## Overview

---

The Marshall Islands' capital has taken a bold step by slashing the photovoltaic glass tax from 12% to 4. This strategic move directly addresses one of solar energy's persistent challenges – high upfront costs for commercial and residential installations., the government's state-owned enterprise that operates power services for Majuro, as well as supporting power operations on multiple remote. 29 atolls across 750,000 square miles of ocean. 35 per kilowatt-hour (kWh), more than twice the average U. The Marshall Islands'. Majuro is a model case for the pacific islands, capable of self sustainment, where vibrant local industries, eco-conscious tourism, and innovative urban agriculture flourish alongside sustainable infrastructure, ensuring a thriving economy, healthy communities, and a built environment protected. Large-scale battery storage solutions now account for approximately 45% of all new commercial solar installations worldwide.

## Majuro reduces solar glass tax
