

Manufacturer of 30kWh power storage cabinets for battery swapping stations

Overview

The Power Station Pro (PSP) stands as a comprehensive energy solution, fully certified (UL9540, UL9540A) and designed to offer up to 30 kWh of reliable, lithium iron phosphate (LFP) battery storage within a pre-assembled, weather-resistant SRB6 battery cabinet. These systems are pivotal for applications ranging from residential energy storage, to providing backup power, to integrating with renewable energy sources. PowerGoGo's Custom Battery Swapping Cabinets provide a robust, efficient solution for electric motorcycles and urban mobility fleets, designed to address energy access challenges in commercial and shared mobility environments. With a focus on flexibility and scalability, our swapping cabinets. With a firm grasp of advanced battery swap technology, backed by a solid 16-year history in power battery production, TYCORUN is capable of delivering a comprehensive suite of solutions - battery swap cabinets, batteries, motorcycles, software and platforms. With rich industry experience, we have deployed more than 5,000 battery swap cabinets and put into use 65,000+ smart lithium. This product targets the three core pain points of low charging efficiency, frequent safety hazards, and insufficient energy replenishment facilities in the electric vehicle industry. Innovate the modular battery swap mode of "vehicle and electricity separation". Relying on intelligent battery.

Manufacturer of 30kWh power storage cabinets for battery swapping

1mwh (500kw/1mw)
