

# Microgrid access measurement and control management cabinet

## Overview

---

ETAP Microgrid Control offers an integrated model-driven solution to design, simulate, optimize, test, and control microgrids with inherent capability to fine-tune the logic for maximum system resiliency and energy efficiency. Generac Link Microgrid Controllers are purpose-built to orchestrate multiple energy assets—solar, storage, generators, and more—into a unified, efficient power system. Whether you're managing facility resiliency, reducing demand charges, or enabling grid participation, these controllers provide. SEL is the global leader in microgrid control systems, verified by rigorous independent evaluations and proven by 15+ years of performance in the field. Earn points through the solid interplay between automation and remote control.

## Microgrid access measurement and control management cabinet

### Lithium battery parameters

Product capacity: 100Ah

Product size: 135\*197\*35mm

Product weight: 1.82kg

Product voltage: 3.2V

internal resistance: within 0.5

### Microgrid Controller Products , Generac Industrial Energy

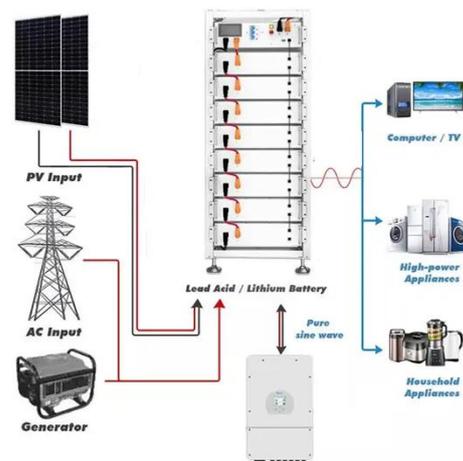

Whether you're managing facility resilience, reducing demand charges, or enabling grid participation, these controllers provide real-time visibility and autonomous control to keep operations running smoothly.

### Microgrid Controller and Control

## Systems

It effectively automates control of all microgrid components and macrogrid interconnections to satisfy power demand and maintain stable operating conditions with minimal operational staffing.
