

Microgrid control stockholm

RS485
Communication between battery and inverters
Band rate:9600bps

RS485 Interface
Communication between parallel packs or BMS and PC
Band rate:9600bps

Overview

Ports of Stockholm and its partners are now launching an innovative project that combines onshore power supply (OPS) and microgrid technology. The initiative will reduce emissions, improve energy efficiency and increase port capacity to meet future demands for sustainable energy. With solar panels and batteries, Vattenfall has designed a smart microgrid that enables Arholma to seamlessly go off grid. The Stockholm archipelago is world famous for its 30. In its far north lies Arholma island, which for many carries the essence of the archipelago beauty: pastoral. With new microgrid technology and onshore power supply, Ports of Stockholm is taking further steps to meet future energy needs and strengthen the sustainability of port operations. The system. IEEE Workshop on Microgrids and Energy Communities (MEC), will take place at KTH Royal Institute of Technology in Stockholm, on Oct 9-10, 2025. Mostafa Kermani, Senior Lecturer in Electrical Engineering at the University of Skövde is.

Microgrid control stockholm

Microgrid lets paradise island cast off from the main land

With solar panels and batteries, Vattenfall has designed a smart microgrid that enables Arholma to seamlessly go off grid. The Stockholm archipelago is world famous for its 30.000 islands.

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

IEEE Workshop on Microgrid and Energy Communities · ISG-MEC

This workshop will gather leading experts from academia and industry to address the latest innovations and deployment challenges related to microgrids and energy communities.
