

Moldova energy storage investment

Overview

Moldova is launching its second auction round for onshore wind farms with a total capacity of up to 170 MW, requiring mandatory battery energy storage systems. Energy Minister Dorin Junghietu announced the initiative at an investors' conference in Chisinau. The United States Agency for International Development (USAID), through the Moldova. The US government has pledged to make a USD 85-million (EUR 78. Image by: Government of Moldova. The investment will be provided as part of a. The European Bank for Reconstruction and Development (EBRD) invested €508 million in 19 projects in Moldova in 2025, almost double the €280 million invested across 14 projects in 2024 and close to Moldova's all-time record of €525 million in 2022. EBRD investments in Moldova have accelerated since. The Republic of Moldova has taken another significant step toward strengthening its energy security by initiating the procurement of a state-of-the-art Battery Energy Storage System (BESS). Preparing for the 2nd annual Moldova. Moldova's Ministry of Energy is moving into the final drafting stage of its next renewable energy auction, following the close of public consultations in November.

Moldova energy storage investment

 Efficient
Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 16A, Compatible with High Power Modules

 Intelligent
Simple O&M

- IP65 Protection Degree: support outdoor installation
- Smart IV Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

 Flexible
Abundant Configuration

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead acid and Lithium Batteries
- Max. 6 units Inverter Parallel
- AEQ Function (Optional): when an arc fault is detected the inverter immediately stops operation
