

Montenegro energy storage

Overview

Summary: Explore how advanced energy storage systems are transforming Podgorica's renewable energy landscape. Discover practical solutions for solar/wind integration, cost-saving strategies, and Montenegro's 2030 clean energy targets in this comprehensive guide. EPCG, the Electric Power Company of Montenegro, will launch a public tender for the procurement of 300MWh of battery energy storage system (BESS). Montenegro has taken a decisive step toward modernizing its power system with a €48 million investment in large-scale battery energy storage systems (BESS). By storing excess energy during periods of high production and releasing it during demand peaks, these systems mitigate the risks of blackouts and. October 13-14, 2025 at the Palace of Congresses in Tirana, the European Commission (Directorate-General for Neighbourhood and Enlargement Negotiations - DG ENEST), the Montenegrin Investment Agency (MIA), and CWP Europe signed a Joint Declaration of Support for the development of the Montechevo.
