

New OTC photovoltaic equipment

Overview

Since Q1 2025, over 12 new over-the-counter (OTC) companies have entered the photovoltaic (PV) sector, driven by global demand for clean energy solutions. But what's fueling this surge?

Let's break it down. Wait, no—actually, it's not just about outdated infrastructure. Discover key trends, challenges, and growth strategies in this dynamic sector. Another PV giant, Trina Solar, whose major products are TOPCon solar cells, also achieved a doubling of profit in the first three quarters to over 5 billion yuan. It seems that although overcapacity is dragging down prices, profits for leading companies are. Specializing in the research and production of photovoltaic connection systems, photovoltaic power stations, electrical equipment (cable trays, bus ducts, switchgear), wires, industrial automation and other products. In 2015, Tonglin Electric Group was listed in New OTC Market (Stock Code: 833666). The next generation of power is here! Introducing the all new Yeti PRO 4000 portable power station with dramatically more power and faster charging than previous generation models. Plus, its updated LiFePO4 battery tech means it can last for over 10 years—even with daily use. LiFePO4 Battery Technology is the New Standard: In 2025, Lithium Iron Phosphate batteries have become the preferred choice for portable solar systems, offering 3,000-6,000 charge cycles compared to 500-1,000 for standard lithium-ion, making them more cost-effective over the system's lifetime.

New OTC photovoltaic equipment

Small Off-Grid Solar Power Kits

Our small off-grid solar kits are designed for smaller structures like cabins, treehouses, and tiny houses. These kits are designed for lower wattage output for smaller off-grid applications.
