

Norway factory that makes lithium battery station cabinets

Overview

Elinor Batteries plans for a giga-scale battery factory near Trondheim, Norway. Based on 100% renewable energy and nordic mineral resources, the factory will supply sustainably produced batteries to the European Energy Storage market. These companies have made significant achievements in technological innovation, sustainable production, and international cooperation, contributing not only to the Norwegian. At Nordic Batteries we assemble and manufacture customized battery- and energy storage solutions to drive your business forward.
