

Ottawa Energy Storage Battery Cabinet Long-Term Order

Overview

The purpose of this memorandum is to inform the Mayor and Members of Council of the City's planned response to the next round of Provincial energy procurement, known as the "Long-Term 2 Request for Proposal (LT2 RFP)". In October 2023, the Independent Electricity Systems Operator (IESO) put out a call for proposals for new Battery Energy Storage Systems (BESS). Through this competitive procurement process, known as the Long-term 1 Request for Proposals (LT1 RFP), the province looked to procure year-round capacity. Ottawa BESS 2 is a proposed up to 75 Mega-Watt ("MW") lithium-ion Battery Energy Storage System ("BESS") that will be located at 2393 8th Line Road, Ottawa, ON, K0A 2P0. Designed for optimal performance, safety, and scalability, they ensure seamless integration with BESS. Battery cabinets from diverse manufacturers APC, Toshiba, CC Power, Eaton, Powerware, Mitsubishi, Narada, and Salicru. We stock new and used battery cabinets in support of our energy storage packages, ups backup systems and rental UPS. The steps outlined below will be led by the Climate Change and Resiliency.

Ottawa Energy Storage Battery Cabinet Long-Term Order

Huge electrical storage project sparks controversy , Ottawa Citizen

More than 60 speakers lined up Thursday to speak to the City of Ottawa's Agricultural and Rural Affairs Committee over a proposal to build a vast electrical storage facility in West
