

# Pain points of photovoltaic bracket industry

## Overview

---

While giants like Trina Solar and Jinko Solar dominate component production, small-to-medium bracket specialists are caught in a perfect storm of supply chain pressures and tech disruptions. You know what's keeping plant managers up at night?

It's not just about bending metal anymore. The global photovoltaic (PV) bracket market is poised for significant expansion, driven by increasing worldwide adoption of solar energy solutions. 47 million in the base year 2025, is projected to achieve a Compound Annual Growth Rate (CAGR) of 17. S, Canada, Mexico), Europe (Germany, United Kingdom, France), Asia (China, Korea, Japan, India), Rest of MEA And Rest of World. The reality is more complicated.

## Pain points of photovoltaic bracket industry

### Reasons for the sharp drop in photovoltaic brackets

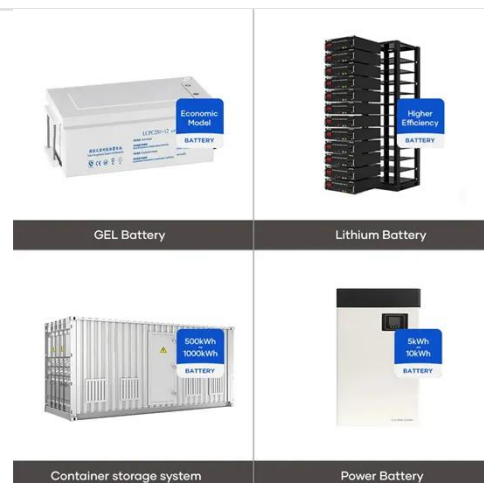

The dramatic drop in the cost of solar photovoltaic (PV) modules, which has fallen by 99 percent over the last four decades, is often touted as a major success story for renewable energy

### Pain points of photovoltaic bracket

## enterprises

Tracking brackets mainly include flat single-axis, inclined single-axis and dual-axis brackets, which can make PV modules follow the sun's position throughout the day, reduce the angle of
