

# Paraguay adds new energy storage batteries

## Overview

---

As South America races toward its 2030 renewable energy targets, Paraguay's Cerro Port Energy Storage Export initiative emerges as a game-changer. Last month, a pilot project in Ciudad del Este demonstrated how lithium-ion batteries could smooth out daily demand spikes. The 5MW system stored excess afternoon solar power (from newly installed PV panels) to cover evening peak loads. But wait - why. The country has not announced any grid-scale energy storage projects to-date. This article explores the city's operational and planned storage facilities, their impact on Paraguay's energy grid, and how companies like EK SOLAR contribute to this gr As. In Paraguay's &quot;Power Generation Master Plan 2021-2040,&quot; seven projects will deploy solar power facilities with battery storage systems. Paraguay's energy grid, which traditionally depends heavily on hydroelectric power, is poised to benefit.
