

Peru solar energy for businesses

*Support photovoltaic input and AC mains input
Suitable for home energy storage and emergency backup power supply*

Overview

The Peru solar energy market is experiencing rapid growth, driven by government incentives, increasing demand for renewable energy, and technological advancements. The government's target of generating 60% of its electricity from renewable sources by 2025 is a major factor driving. The company offers a variety of solar and wind energy solutions as part of their comprehensive product range, which also includes energy backup systems and HVAC equipment. Their expertise in turnkey solutions and a specialized team ensures effective support and maintenance for these systems. The Market Sizes and Forecasts are Provided in Terms of Installed Capacity (GW). Delta Volt SAC (DeltaVolt) is a renewable energy company in Peru. Focused mainly on off-grid photovoltaic systems and small wind turbines for areas without electricity, it also provides solar water heating systems and some useful energy efficient appliances.
