

Photovoltaic panel assembly structure drawing

Overview

These technical drawings outline the specifications, dimensions, and installation guidelines for solar panels within the system. Photovoltaic modules installed on a pitched roof or facade occupy an area of about 8 m²/kWp. The design of a photovoltaic system, from DWG format available upon request. Space requirements and layout for photovoltaic and solar water heating system components should be taken into account early in the design process of many of the terms you may encounter. Let's crack open the blueprint cabinet and see what makes.
