

Photovoltaic panel free cooperation enterprise

Overview

We provide low-to-no cost solar electric systems to families that qualify as low income, and install them using a barnraising model that gives volunteers and job trainees hands-on experience they can use to get jobs in the growing solar industry. Community solar is rapidly growing across the country. The program is administered jointly by the Department of Community and Economic Development (DCED) and the Department of Environmental Protection. The ITC — also known as the Federal Solar Tax Credit — is a popular tax rebate program offered by the US Federal Government for homeowners looking to switch to clean, renewable solar power. In August of 2022, the United States Congress extended the ITC while at the same time raising the total. In a community shared solar (CSS) program, a large solar photovoltaic (PV) system provides power or financial benefit to multiple community members.
