

Photovoltaic panel grid access certification

Standard 20ft containers

Standard 40ft containers

Overview

This online certificate path covers grid-direct and battery-based PV design and installation for residential and commercial applications, plus solar business, technical sales, and O&M. Over the past 10-plus years, we have grown into the global certification leader in the renewable energy industry. Training can take many forms based on the target audience and topic area, such as a high school career technical education (CTE) program, an undergraduate or graduate degree. Our Certifications are backed by the highest standard of professionalism and competency in the solar electric (PV) industry through state-of-the-art, accredited training programs and online classes. Required to receive SolarEdge support for Home Hub inverter installations and service.
