### Understanding Solar Isolator Switch

Isolator Switch Definition  
Solar Isolator Switch Types of Solar Isolator Switches  
DC Isolator For Solar  
AC Isolator For Solar  
An AC isolator switch is designed to be installed in the AC side of a PV system, between the grid and the inverter (in a grid tied system) and between the inverter and the loads (in an off-grid system). Its main function is to disconnect the AC power from the grid or loads in case of emergency or repair needs. See more on [igoyeenergy](#)
