

Photovoltaic panel processing platform manufacturer ranking

Overview

Based on the 2025 market shipment forecast and technology analysis, this report provides an in-depth overview of the world's top 10 photovoltaic module manufacturers to help enterprises make informed decisions on product selection and investment strategy. The world's top 10 solar photovoltaic (PV) module manufacturers shipped a record 500 gigawatts (GW) of modules in 2024, nearly doubling the previous year's volume, according to Wood Mackenzie's new Global Solar Module Manufacturer Rankings 2025 report. Despite this surge in shipments, the leading. With global solar capacity expected to reach 4.5 terawatts by 2030, photovoltaic panel processors are racing to meet demand. But which companies truly lead in manufacturing excellence?

Our 2025 analysis reveals surprising shifts in this \$420 billion industry. It aims to. Industry-Wide Pressure, Persistently Low Operational Rates: In October, as many as 13 of the TOP 20 companies had operational rates below 50%, with the industry average around just 45%. Harnessing solar power is not only a necessity but also a much-needed enabler of the global energy transition.
