

# Photovoltaic panel stocks are worth investing in

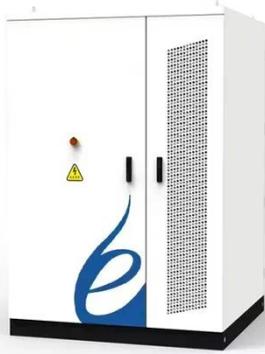

## Overview

---

In this article, we cover nine of the best solar stocks to buy in 2025, all listed on major U.S. exchanges. We aim to give you a clear, beginner-friendly view of each company, why it qualifies, and what the risks are. If you're a believer in the future of solar power and can look past the recent volatility from rising energy prices, Forbes Advisor would like to share with you what we believe are among the best solar power stocks to consider right now. That technology is driving accelerated electricity demand, making solar's future look even brighter. The solar industry faced a 24% year-over-year decline in second-quarter 2025 installations, with all segments except commercial solar shrinking due to unfavorable federal policies and trade challenges. Despite the elimination of many federal
