

Photovoltaic reclosing circuit board

Overview

It has the functions of overvoltage, under-voltage, loss of voltage, overload, and short circuit protection. It does not require signal control. It will open and close automatically according to the voltage. This product. GYAR9 Smart Auto Recloser Compatible with Schneider Electric A9 series air opening IC65N miniature circuit breaker. Intelligently upgrade the circuit breaker (without affecting the circuit breaker itself). See more product details Would you like to tell us about a lower price?

Found a lower price?

Let us know. Although we can't match every price reported, we'll use. HC Electric Automatic Reclosing Miniature Circuit Breaker for Solar System suitable for AC 50Hz, rated working voltage up to 400V, rated current to 32A, 40A, 50A, 63A, 80A,100A with Over voltage, Under voltage, Voltage Loss, Overload, Short-circuit protection function. At present, it is widely used. The SYB5-80PU Automatic Reclosing Miniature Circuit Breaker, supplied by China-based manufacturer Zhejiang Soutya New Energy LLC, provides 400 V AC, 16-80 A overcurrent protection with 10 kA rated short-circuit breaking capacity and automatic reclosing for rooftop solar strings, grid-tie inverters. MDB7-100 is applied in a PV system; it can close automatically, the quality is excellent, and it can maintain the power transmission mode for a long time. A PV reclosing breaker is a specialized type of electrical switch used in photovoltaic systems to protect electrical equipment from damage due.

Photovoltaic reclosing circuit board

PV Auto Reclosing

With fault protection and overload and short circuit protection. It is suitable for auto opening and closing control of circuits with AC 50Hz, rated working voltage AC230V, rated current 6A~125A. This product is widely used ...
