

# Photovoltaic support engineering installation personnel

## Overview

---

But what is a solar photovoltaic installer — and what do they do?

Also known as a solar panel installer, a solar PV installer is a skilled tradesperson who installs solar panels and support structures on residential, commercial, community and utility-scale projects. **Multiple Entry Pathways:** Unlike many technical careers, solar installation offers flexible entry routes including on-the-job training, apprenticeships, community college programs, and trade schools, making it accessible to workers from diverse backgrounds. **Strong Earning Potential with Advancement:** Solar photovoltaic (PV) installers assemble, set up, and maintain rooftop or other systems that convert sunlight into energy. Our team delivers data-driven, constructible designs that maximize energy performance, simplify interconnections, and meet every regulatory and utility requirement — from. Solar PV Installer Engineers are responsible for designing, installing, and maintaining solar photovoltaic (PV) systems. Their daily responsibilities are.
