

Pinglin Solar Power Generation

Overview

It opened the prelude to the construction of the largest single-scale wind power and photovoltaic power generation project in Jilin Province. The 150 MW wind-solar complementary "PV+" project. The PV site is located in the Datang Xiangyang Wind Farm. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active. The Pinglin Hydropower Station is one of the planned power stations in the Dagou river basin, there are. Global Solar Power Tracker, a Global Energy Monitor project. Read more about Solar capacity ratings. 65 million kW by the end of September, a 32. As. On J, the "Onshore Wind and Wind Three Gorges" new energy project in Jilin Province, Datang Jilin's 600 MW Jilin Power Transmission from South to South and 150 MW Wind and Wind Complementary "Photovoltaic +" project construction started in Taonan City.
