

# Podgorica energy storage project latest

## Overview

---

Sep 5, Montenegro invests €48M in 240 MWh battery energy storage systems to enhance grid stability and accelerate its renewable energy transition. Discover practical solutions for solar/wind integration, cost-saving strategies, and Montenegro's 2030 clean energy targets in this comprehensive guide. Capacity is expected to rise nearly ten times from 2025 levels. This surge is driven by a significant number of projects moving from tendering to execution. The deadline for applications is March 24. [pdf] • The distance between battery containers should be 3 meters (long side) and 4 meters (short.
