

Port-use outdoor telecom enclosure hybrid installment payment

Overview

This compact solution integrates essential components like OLT, a 48V DC power supply, fiber ODF modules for subscriber connections, and an EMS (Environmental Management System) to monitor conditions. Westell is a collaborative partner in OSP deployment optimization providing customized, fully integrated, vendor neutral outdoor network equipment enclosures. With proven expertise in system integration, Westell also manages the details for design assistance, planning, thermal management. The Hybrid outdoor cabinet offers a streamlined alternative to traditional POP (Point of Presence) stations for telecom applications. The patented Outdoor Hybrid Enclosure (OHE) with surge protection is no exception. The engineered flip-tray mechanism offers dedicated fiber access, optical path testing becomes easier, and maintenance becomes faster.
