Precise 4-digit LED Display, Auto Power Calculation: The NICE-POWER DC power supply variable is a professional switching power supply regulation device with a high resolution of 0. The variable power supply features a big bright 4-digit LED display that shows the adjustable power. Feed sensitive electronics with proper voltage regardless of battery condition. With a powerful and rechargeable 155Wh lithium-ion battery and various connection options, almost all common electronic devices can be operated and charged. off w/ promo code EDF334, limited offer off w/ promo code EDF294, limited offer Did You Find It?
