

Poverty Alleviation Office Solar Power Generation

Overview

The photovoltaic poverty alleviation project, part of the “Ten Major Precise Poverty Alleviation Projects” implemented by the Poverty Alleviation Office of the State Council, significantly contributes to eradicating poverty and rural revitalization. A difference-in-differences model was utilized in. cts and its impact on poverty alleviation. However, limited research has systematically reviewed the progress in the field of solar. Shanghai - a core city of the world-class urban agglomeration in the Yangtze River Delta Located in eastern China and at the mouth of the Yangtze River and facing the Pacific Ocean, Shanghai, together with its neighboring provinces of Zhejiang, Jiangsu, and Anhui, is part of the Yangtze River.

Poverty Alleviation Office Solar Power Generation

Solar photovoltaic interventions have reduced rural poverty in China

The PV poverty alleviation effect is stronger in poorer regions, particularly in Eastern China. Our results are robust to alternative specifications and variable definitions.
