

# Price difference of solar panel grades

## Overview

---

Solar panels are graded into categories A, B, C, and D based on their quality, and the cost differences between these grades can be significant. Grade A panels, for instance, are the highest quality, while Grade D panels are typically considered low-grade materials. But here's the truth: panel grade makes all the difference — in how your system performs, how long it lasts, and how much you actually save. At Sova Solar, we're often asked: “Why not just go with a cheaper panel if it's still 300W?

” The answer lies in what you're really paying for — and how Grade. Grade B solar panels have some visual defects that do not affect performance. Grade B naturally falls below grade A in this grading system. Get insights to make informed decisions for your solar project. Premium Grade (Tier 1) "Premium panels often come with extended warranties—some even cover 90% output after 25 years.
