

Refrigerated container with generator solar

Overview

In essence, these are solar powered refrigerated shipping containers that tap into the sun's power to operate their cooling systems. The container is designed to provide reliable and efficient refrigeration while utilizing sustainable solar power technology. Shipping kangaroo burgers from Australia to California had never been easier. The refrigeration system for a reefer is very similar to the system in your household. Customizable 20ft & 40ft Containers, from -30°C to +20°C. Energy Source: Grid electricity reliant 2.

Refrigerated container with generator solar

HEAT DISSIPATION

Cold aisle containment, making optimal refrigeration effect;

Solar Container Cold Storage , Off-Grid Refrigeration

Our Solar Container Cold Storage -- A shipping container turned into a big solar-powered fridge. Keeps food, medicine, and other goods cold without needing electricity.
