

Rural microgrids guatemala city

Application scenarios of energy storage battery products

Overview

The minigrids, and individual solar-plus-storage systems, form part of a Rural Electrification Access Program planned by the Inter-American Development Bank (IDB). The IDB has approved a \$250 million loan to increase electricity coverage in rural Guatemala. Schneider Electric and United Solar Initiative announced plans to build microgrids at two rural birthing clinics in underserved, largely indigenous communities in Guatemala. The 25-year loan, which includes a five-and-a-half-year grace period. CHICAGO, Oct.
