

# Saudi Arabia charging pile energy storage system manufacturer

## Overview

---

The project is owned by Saudi Electricity Company (SEC), with National Grid SA as the offtaker. Aljihaz Holding delivered the project under a full turnkey EPC contract, including operations and maintenance as well as the supply and integration of high-voltage transformer equipment. Saudi Arabia has a vast potential for large-scale photovoltaic and storage projects, and under its leadership, the Middle East energy storage market is entering a phase of rapid expansion. Saudi Arabia has a large electricity consumption base, abundant solar resources, a strong awareness of energy. The Saudi Electricity Procurement Company, a subsidiary of the Saudi Ministry of Energy, recently announced the list of qualified bidders for the first battery energy storage system (BESS) project in Saudi Arabia, with a total energy storage capacity of 8 gigawatt hours (GWh). The Kingdom of Saudi. Huijue Group's energy storage solutions (30 kWh to 30 MWh) cover cost management, backup power, and microgrids. To cope with the problem of no or difficult grid access for base stations, and in line with the policy trend of energy saving and emission reduction, Huijue Group has launched an. In the rapidly evolving landscape of electric vehicle (EV) infrastructure, customer requirements in Saudi Arabia are increasingly centered around reliability, speed, and integration capabilities. 5 billion by 2032, registering a CAGR of 15. Reliable performance, scalable capacity and intelligent BMS for stable energy supply.
