

Senegal solar Energy Storage Power Generation Project

Overview

Senegal has inaugurated a solar power plant equipped with battery storage in the northern Saint-Louis region, marking a milestone in the country's efforts to strengthen grid stability and expand the use of renewable energy. The Walo Storage power plant, located in Bokhol, combines a. The project has been touted by the developer as the first solar PV facility in the region to be combined with lithium-ion battery storage. Described as a first for West Africa, a solar PV installation with battery storage project dedicated to frequency regulation has been commissioned in Senegal. Senegal's first solar-plus-storage plant, built by Africa REN in Bokhol, combined 16 MW solar and 10 MW / 20 MWh storage for grid stability.
